Ocean Reef Club has the distinct advantage of being able to offer dry storage to its Members.

We can accommodate boats up to 33' inside and up to 39' outside.

There are several factors that determine when and where we can place your boat:

Length • Weight • Beam  
Height • Travel Lift Boat

We can store monthly or annually inside or outside.

Stop by the Storage Office located in the Fishing Village and we will help find the ideal dry spot for your boat.
